optional translucent colours

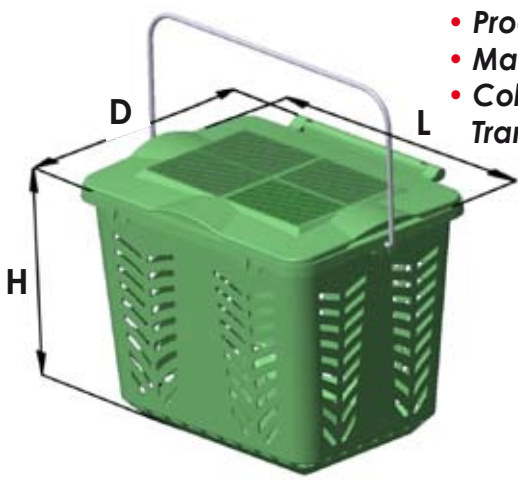

Stelo

Stelo is the new kitchen caddy created to optimise and simplify the segregation and collection of kitchen food wastes for central composting or home composting. **Stelo**, when combined with WENTERRA® Biobag a breathable liner with transpiration properties produced from compostable Mater-Bi starch based renewable resources, is the new aeration system that:

- **Allows** complete ventilation of the material;
- **Decreases** the weight to be collected, by reducing moisture by up to 30%;
- Significantly **reduces** unpleasant smells caused by anaerobic bacterial activity;
- Significantly **reduces** the growth of mould and fruit fly activity;
- **Avoids** the build up of liquids at the base, through evaporation;
- **Prolongs** the integral strength of WENTERRA® Biobags and the storage period;
- **Makes** the daily tasks of segregation and collection easier and more hygienic;
- **Allows** for easy filling through a wide opening;
- **Improves** the quality of segregation, collection and the composting process;
- **Reduces** the costs of food waste diversion.

TECHNICAL DETAILS:

- Capacity: 7 litres
- Perforated walls and ribbed base
- With or without ventilated hinged lid
- Lowered hinges
- Detachable lid
- Metal handle
- Dishwasher safe
- Produced from recyclable or recycled PP
- May be hung inside a cupboard door
- Colours: green, brown, pigeon blue, pastel turquoise
Translucent colours: green or blue

	Height (H)	Length (L)	Depth (D)	Volume
Without lid	190	250 (270)*	188	7 lt.
With lid	205	250 (270)*	200	7 lt.

* With handle

The manufacturer reserves the right to apply technical and aesthetical changes without notice

Stelo is the new generation of kitchen caddy for use with 100% compostable WENTERRA® Biobag liners according to BS EN 13432. Together, they make the tasks of waste reduction easier, safer and better for our environment.
