MGBround with inner lid and round bottom body 200 or 240 litre

- Modern ergonomic inner lid design
- Reversible option for inner lid bin front or handle facing
- Optimum aperture size W297 x D245mm
- Front lip for easier lid opening one handed
- Hinged lid with maximum opening limiter
- No sharp edges or food traps
- Ideal receptacle for communal filling with food waste
- Secure prevention against vermin access
- Recommended to use with wider Big Foot wheels (vulcanised rubber)
- Heavy duty and durable main lid
- Hygienic and easy to maintain and clean
- Options for main lid lock:
 - Triangular key – mechanism mounted inside lid with body slot*
 - Other lock options on request
- Wheeled bin compliant with standard EN840
